Professor Academician

LIFE AND STUDY IN GEORGIA

Imagine a country offering a myriad of experiences, from swimming in the Black Sea to skiing in the majestic Caucasus mountains, all while immersing yourself in vibrant city life. This land is abundant in wonders and rich in ancient culture, blessed with a mild climate, and inhabited by incredibly hospitable people who consider guests as divine blessings.

In recent decades, the Georgian higher education system has experienced remarkable development. Universities in this country now provide international students with affordable, high-quality study programs. These programs are accredited according to European (ENQA) Standards, ensuring that the diploma you earn upon graduation is widely recognised and accepted in Europe, the USA, Canada, the UK, and India.

STUDENT LIFE

DISCOVER. LEARN. THRIVE.

The University provides all possibilities for students to develop at their full potential. The students are intensely involved in Educational and Extra Curricular activities such as theoretical-practical conference excursion competitions, festivals, student organizations, clubs sporting events.

For students who aim to study in Georgia, Georgian universities are among their top preferences. Indian families want their children to pursue their careers mainly in two categories, namely Medical and Engineering. Students planning to study abroad might have various options to look up to, but they are expensive too. When considering in terms of affordability, Georgia is one of the alternatives.
